VOLUME VI MARCH 2021

President of Walailak University presided over the first submission to the THE World University Rankings on Tuesday, 30th March 2021.

Professor Dr. Sombat Thamrongthanyawong, President of Walailak University presided over the first submission to the THE World University Rankings on Tuesday, 30th March 2021.

On this occasion, the president emphasized that Walailak University is the first young university in Thailand to be selected as a Frontier Research University by the Ministry of Higher Education, Science, Research and Innovation (MHESI). It's the only university in this group not currently ranked by either the THE World University Ranking or QS Asia Rankings. Driven by our aim to be a world-class university, we are confident that the University will be ranked when the THE Impact Rankings and QS Asia University Rankings are announced in April 2021 and November 2021, respectively.

For the THE World University Rankings, Walailak University will be officially qualified to submit in 2022 and expects to be ranked by September 2022. This first submission to the THE World University Rankings has helped to galvanize our community and we look forward to international recognition in the next year's rankings. How the “Love Language & Psychological Approach can reduce Depression and the Suicide Rate !!

Assoc. Prof. Dr. Saifon Akwarangkoon, lecturer and experts in psychiatric and mental health nursing, School of Nursing, Walailak University revealed that children and young people nowadays are facing the rapidly developing age-related problem. In addition, the changing of media, technology, society and environmental conditions causing more risk and mental health problems especially depression self harm or suicide. In the community, she found that there are adults who are stressed from work, unemployment during the COVID-19 situation, and some of elderly people who live alone faced more depression and this is a major problem in public health around the world.

She then designed a program called "Love Language & Psychological Approach" to in depth apply to the people in the community by the co-operation of NST Primary Educational Service Area Office 4, Ban Thung Kroa School, Young Vision Network Group for the development of quality of life, society and environment, Ban Ton Liab Health Promoting Hospital, Health Service Centers in the community, Village No. 6 and 15, Thasala Sub-district, Thasala district, Nakhon Si Thammarat Province, and the Smile & Smart Center of the university. Her study found a positive out put to reduce more the problems mentioned.
