In addition, due to very high demand we offer the following add-on programmes to help students develop essential skills along with their internships:

1. Python Coding & Machine Learning – Beginners & Advanced levels
2. Communication Skills & American Accent Training by an American Trainer

### **Internship Methodology**

In the 4 or 8 weeklong internships, students will be assigned a specific project in their area that will be broken down into weekly tasks or assignments to be completed and submitted within the deadlines. They will be assigned a mentor from Ureka who will guide and support them in completing the project and provide them insights and inputs required for success. The mentor will conduct weekly meetings over zoom with the students to monitor their progress and help them with any queries or concerns. The internships are rigorous and seek to push students out of their comfort zone to learn and deliver their best. The certificates are graded (A – C) based on the performance of students assessed by their mentors.

### **Internship Fee**

The students need to pay a fee, the 4- and 8-weeks internships are priced at

**AUAP Members:** USD150.00 and USD270.00 respectively. No stipend is paid.

### **Global Quotient (GQ)** – making the world a better place

The idea of GQ is more encompassing than just a global mindset, it means taking the knowledge that comes along with the mindset and creating global change.

This is very important in education today. Our students need global exposure and experience to give them a global perspective so they can be more competitive in the labour force and become more complete citizens in an interconnected world.

GQ helps create a circle of globally minded people who strive to go beyond what they have already accomplished by increasing their global competence.
